📍 1955 90th Avenue, Brooks, Canada

SUMMARY

A senior Full-Stack Developer with hands-on experience in creating user-centric, engaging, and dynamic web applications.
Specialize in Front-End Development and have expertise in JavaScript, HTML, CSS, and popular frameworks like React and Angular.
Also highly skilled in Back-End frameworks like Node.js, Laravel, and Django.
Well-versed in responsive design, UI/UX principles, optimization techniques, and cross-browser compatibility and ensuring all developed platforms are up-to-speed, efficient, and modern.

EXPERIENCE

Senior Full Stack Developer

Techasoft Pvt

📅 05/2016 - 07/2023   📍 Canada

- Spearheaded the development and ongoing maintenance of a scalable E-commerce platform using React, Next.js, and Laravel.
- Executed seamless UI development by leveraging advanced tech stack like React, akin to highly-detailed designs produced in Figma.
- Worked on developing RESTful APIs and managed database schema, increasing the system's efficiency.

Front End Developer

MicroAge

📅 08/2013 - 05/2016   📍 Canada

- Delivered efficient web solutions by employing expertise in front-end frameworks including React and Angular for dynamic user engagement.
- Showcased inventive flair in website design and theme customization, leveraging proficiency in HTML, CSS, JavaScript, and jQuery.
- Implemented responsive and pixel-perfect UIs utilizing advanced styling frameworks such as Bootstrap, Tailwind CSS, and Material UI, thus enhancing the responsiveness and visual appeal of webpages.

Back End Developer

Informatics Tec

📅 02/2012 - 08/2013   📍 Canada

- Showcased mastery of diverse back-end languages and frameworks such as Node.js, Laravel, and Django to deliver robust solutions.
- Effectively implemented RESTful APIs, demonstrating proficiency in API integration aimed at creating seamless end-user experiences.
- Optimized the performance of a variety of databases including MySQL, PostgreSQL, and MongoDB, enhancing efficiency and data retrieval speed.
